

Middle College

Dalila Carrillo-Moreno

Submitted by Regina Freking

We are proud to recognize Dalila Carrillo-Moreno as our Middle College Outstanding Student. Dalila is intelligent, hard working and extremely empathetic. She has grown tremendously this year, transforming herself into a resourceful college student by pushing herself outside of her comfort zone to participate in class discussions and connect with her professors. Other highlights from the year include the book Dalila authored titled: Six Life Lessons from a Purring Pal. Dalila turned this endeavor into her senior project, where she inspired sixth graders to reflect on their learning and author books of their own. With her work ethic and generous spirit, Dalila will make an expertly skilled nurse who offers her patients a much needed dose of comfort and compassion.
